Subject: Dimock sample data

Ron and Karen,

We will have our sample data for at least the first two weeks of testing compiled into an easy to review spreadsheet this week. Cabot has asked DEP to compare data and I intend to take them up on their offer. I really think it would be useful for the EPA, DEP and Cabot to compare our results prior to sending the results to the home owners to correct any data entry errors or identify significant differences in results. Let me know if this will be possible.
